# Cold Storage Mt. Goat Hunt Zone Closed

(Sitka) – Hunt managers set a harvest quota of 5 males or 1 female for the Cold Storage hunt zone of mountain goat hunt RG150 on Baranof Island. Quotas are based on the most recent aerial surveys. To date, two female goats have been harvested in the Cold Storage hunt zone of RG150. Winter snow conditions have made goats more accessible. Additional harvest could be detrimental to the long-term stability of the goat herd in this area. Therefore, this zone is being closed by emergency order (EO) at 11:59 PM, Wednesday, December 29, 2021.

**Emergency Order 01-26-20 was issued to close the mountain goat season in the Cold Storage Zone of RG150 on Wednesday, December 29, 2021 @ 11:59 PM.**

Those portions of Unit 4 not affected by this emergency order will remain open until harvest quotas are reached or the season concludes.
